TYR Mens Hurricane Category 2 Wetsuit S From TYR

The **Mens TYR Hurricane Category 2 wetsuit** has a lot of the advanced features to maximize performance that its more expensive competitors have.

The all new Category 2 wetsuit is constructed with Slick Skin Neoprene, which is perfect for beginner and intermediate triathletes, since it boasts minimal drag and maximum speed and durability in its class.

Showcasing Free R.O.M. (Range of Motion) Zones, the Cat 2 wetsuit eliminates constriction, allowing the swimmer to achieve a long reach without placing strain on the shoulder, while formfitting wrist cuffs keep water from entering the suit. Engineered for triathletes, Quick Release Ankle Cuffs allow for quick and effortless removal during T1 and strategic Speed Wrap Paneling placed throughout the leg, chest and core give you the feeling of a second skin, while maximizing body position and minimizing drag.

Elevation panels in the chest and core elevate the swimmer's position in the water, ensuring optimal body positioning, buoyancy and speed while muscle groups are specifically targeted for core stabilization and long-term preservation of core strength. Alpha Catch Panels are strategically engineered on the forearm to allow for a maximized catch-and-release stroke. An insulated, thinner layer lies underneath to allow a feel for the water.

Antimicrobial lining provides superior odor protection and long lasting freshness.

All TYR Hurricane wetsuits are WTC (Ironman) / USAT legal.
