Mentira Care Santos

Xenia is an excellent student who dreams of going to medical school, but, lately, her grades are slipping. She has fallen in love with a boy she has only chatted with online. Since he refuses to meet her in person, she starts digging around to find out more about him. Everything turns out to be fake. Not even his name and photo are real. After telling her parents the whole story, an expected package arrives that reveals the young man's identity. It comes from the juvenile detention center and it tells the story of a murder!
