American Cars: Past to Present (Genius)

Matt DeLorenzo

American Cars: Past to Present (Genius) Matt DeLorenzo

The automobile, invented in Europe, became a necessary possession for the masses in America. A means of transport but also a reflection of society, American cars have been known and appreciated across the globe for generations.

This volume is a thoughtfully compiled illustrated catalog of the most important models from the origins until today, and traces the history of the design, technology and philosophy that have decided their evolution.

About the Author

Matt DeLorenzo was named Detroit editor of *Roads & Track Magazine* in January of 1998 after an eight-year stint as editor of *Autoweek* magazine. His tenure as editor of America's only weekly car enthusiast magazine spanned half his 16-year career with *Autoweek's* publisher, Crain Communications. DeLorenzo has written two books, *Volkswagen New Beetle* and *Chrysler Concept Cars: The Designs that Saved the Company*, the latter awarded "Best of Books 2001" by the International Automotive Media Association, and has co-authored two other books with noted automotive journalist John Lamm on the Chrysler PT Cruiser and the Hummer H2. DeLorenzo is a founding member of the North American Car and Truck of the Year Award.
