## **ECO House: Green Roofs and Vertical Gardens** Patricia Martinez

Environmentally-friendly architecture has come on leaps and bounds in the last two decades - a combination of new materials, new construction techniques, and architects willing to take on the challenge, has seen stunning eco-projects come to life around the world. This superbly illustrated volume brings together a collection of environmentally-friendly projects from around the world, all of which have one thing in common - their innovative and exciting use of green space. Whether a vertical garden, an interior green space, or a garden roof, these stunning projects showcase the future of environmentally-friendly housing.
