"BASIL was the second work of fiction which I produced. On its appearance, it was condemned off-hand by a certain class of readers, as an outrage on their sense of propriety. . . ." -- Wilkie Collins

Review

"[A] characteristically chilling work by the master of Victorian suspense." From the Back Cover

In BASIL'S secret and unconsummated marriage to Margaret Sherwin, the linen-draper's sexually precocious daughter, and the consequent shocks and horrors of betrayal, insanity, and death, Collins reveals the bustling, commercial London of the first half of the nineteenth century wreaking its vengeance on a still powerful aristocratic world. But although BASIL himself does not recognize them, the story forces other conflicts on the reader's attention-between man's sexual and romantic needs and between men's and women's sexuality.
